22 - 22. You are encouraged to comment further on the effectiveness of the instructor.

Howard Han

Response Rate	
5/25 (20%)	

- The lab is really interesting and he doesn't take excessive amounts of time to explain simple things but lets us safely learn for ourselves.
- he is great
- Professor Han breaks down the information for the lab to a level that is understandable. Presents information well and engages with students. Great professor to have for lab/ lecture.
- no thanks
- Professor Han was a very great lab instructor. He did a great job of not only teaching the class but also allowing students to connect with him on a personal level such as by introducing himself and his hobbies in the first week of school. The lab materials were always ready before class started and he would even sometimes briefly go over the content of the lab to ensure everyone was on the same page and knew how to do the experiments/calculations. I also appreciated how he was available through email or Discord so we could ask him for help if we needed it. I would definitely take another course from Professor Han if I am able to.
